

Example activity programme for young learners

A fun-filled activity programme with something for all our students

All our young learner English courses include an afternoon & evening activity programme to allow students to discover Jersey's fantastic range of cultural, sporting and leisure opportunities. Evening & weekend activities, particularly in the summer give them the opportunity to meet other students at the beach BBQs, sports evenings & disco night.

All afternoon activities are supervised by our staff and we have staff members around St Helier for summer evening activities to ensure their safety.

See a sample programme below of the afternoon & evening activities, **following the morning English lessons each day.**
